TRANSTAINER FEATURES & SPECIFICATIONS

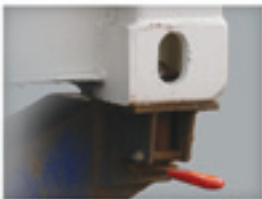

200TT-CAB-IMDG

FEATURES:

- UL/ULC Plated for safe and legal fuel storage.
- Full weatherproof secondary containment (Double wall).
- All pumps and fitting are located inside the secondary containment for environmental protection.
- Built within ISO container dimensions and CSC certified.
- Approved for transportation of fuel on road/rail/sea under Transport Canada regulations.
- Internal baffles prevent fuel surge and help stable handling and transportation at any fill level.
- Corner twist locks top & bottom and forklift pockets for easy handling.
- Stackable 6 high full of fuel, reducing transport and storage space requirements.
- Option for 4 sets of feed & return connections plus pump/auxiliary equipment feed.
- For additional security fuel lines can be fed through access holes enabling doors to be kept locked while tank is in use.
- Access manway on top of tank for maintenance and cleaning.
- Highly accurate magnetic contents gauge.
- T9 UN Portable Tank allowing transportation of a wide range of flammable and combustible liquids.

Model#	Length	Width	Height	Capacity	Approx Weight Empty	Approx Weight Full
200TT-CAB-IMDG	238.5"	96"	96"	4,070 imp gallons 18,500 litres	12,125 lbs 5,500 kg	48,000 lbs 21,800 kg

Features & Accessories to Consider:

Fits standard container chassis

... Hose reels

Spill kits & fire extinguisher

... Pumps

...Trailer Chassis
